

# Mini-Hemp<sup>®</sup>

## Hemp-litter for small pets

- Virtually dust-free
- For a healthier habitat
- Hygienic
- Better absorption of moisture and odours

### HempFlax bv

produktie en verwerking van vezels uit hennep en vlas  
*production and processing of fibers from hemp and flax*

*Nature wins!*

Hemp litter is used to cover floors of cages for pets such as rabbits, guinea-pigs and birds. It is made from the delicate woody core of fibre hemp. Mini-Hemp provides a hygienic and comfortable pet habitat and it is perfect for the cat box too.

Due to hemp wood's natural spongelike quality, moisture and odours are easily soaked up. Ammonia in particular is bound and absorbed by hemp litter. Mini-Hemp is user friendly and can stay put for longer periods than other pet litters.

Mini-Hemp comes in convenient packs of 12 and 48 litres littering volume.

*After use Mini-Hemp is suitable for organic waste disposal and after composting it can be used as a biological garden fertilizer.*
